

## COMPANY OVERVIEW

i5 Technology Group is a technology consulting firm that for nearly a decade has consistently and successfully delivered long-lasting value to our government and private sector customers by helping them align their IT service needs with their organization's mission. Our team of consultants bring nearly two decades of experience in software development, IT service management, and project management. The technical expertise of i5 TG consultants are uniquely complemented by their consulting experience across diverse government entities and the private sector.

## CORE COMPETENCIES

At our core, we are application development, collaboration, and workflow automation experts with specializations across several platforms including SharePoint, M365, and the Power Platform. We leverage those expertise to develop modern, low-code, and scalable enterprise solutions. i5 TG maximizes your existing IT investments, and develop custom applications when applicable, in that order, while helping organizations strategically plan for future IT modernization.
